-MADE FOR STRIKES-
DOUBLES AS A SPARE

SECRET SAUCE

POLISHES BOWLING BALLS IN LESS TIME THAN ANY OTHER POLISH WITH BETTER RESULTS. THIS CONCENTRATED POLISH LEAVES NO RESIDUE AND DOES NOT CLOG THE BALLS' PORES, THUS INCREASING BACKEND HOOK POTENTIAL. THE SECRET SAUCE GIVES A TACKY FEEL TO THE COVERSTOCK, CREATING A LIKE NEW BALL REACTION ON THE BACK PART OF THE LANE, WHILE INCREASING LENGTH. THE LUSTER YOU SEE WITH VERY LITTLE EFFORT IS REALLY AMAZING. THE POLISH WORKS BEST WITH A BALL SPINNER AND WORKS GREAT BY HAND TOO!! THE SECRET SAUCE IS NOT ONLY A GREAT POLISH, BUT WORKS AS A GREAT CLEANER AS WELL, WHILE KEEPING TACK AND GLOSS ON THE BALL.

ACCESSORIES

AXIS FINDER

The easiest way to spin a bowling ball and find its axis point.

GRAVITY BALANCE SYSTEM

This system is specially designed for axis and leverage weights. You will be able to enhance the performance, predict the reaction, duplicating this from ball to ball.

BUZZSAW TOWELS

GRIPLOC

GripLoc's innovated, patented Interchangeable Thumb Assembly has changed the bowling industry to such a new level that it has challenged bowling supply companies to produce their own version of the Interchangeable Thumb Assemblies. GripLoc is still the easiest to install. GripLoc's two-piece system consists of an Outer sleeve and an Inner sleeve. The Outer sleeve is made of a durable nylon that is permanently glued into the thumb hole of your bowling ball. The Inner sleeve is made of the highest quality urethane and is available in pilot holed solids. The unique feature of GripLoc's Interchangeable Thumb Assembly is the "locking" mechanism. Once you "Load & Lock" the Inner sleeve into the Outer sleeve, you will hear a "clicking" sound which indicates that the Inner sleeve is secure in place. The GripLoc Interchangeable Thumb System comes in two sizes: 1 3/8" standard and 1 1/2" large.
